Art Unit: 2652

This application is a CON of 09/306,572 (now USP 6,690,638) and claims 6-11 are now pending.

***Information Disclosure Statement***

1. The information disclosure statement filed 9/11/03 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

***Specification***

2. The abstract of the disclosure is objected to because the language is not directed to the newly presented claims. Correction is required. See MPEP § 608.01(b).

***Drawings***

3. The drawings were received on 2/18/05. These drawings have been considered as “replacement sheets” and are acceptable.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 6-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 recites, “wherein the mass of the sub-frame is 1/10 – 1/3 of the mass of

Art Unit: 2652

the main frame". From this language, it is unclear as to what encompasses the *total* weight(s) of the sub frame and main frame, since the specification (at page 8, lines 13-18) sets forth that the weight includes all mounted members, however, the claim(s) are absent this critical feature(s). From this, the metes and bounds of the claim(s) cannot be readily ascertained at this time.

***Allowable Subject Matter***

6. Claims 6-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

\*Complete reasons for allowance will be written upon allowance if necessary.

***Response to Amendment***

7. The amendment and remarks filed 2/18/05 have been considered, however, do not place the application in condition for allowance.

**A...**Applicant submits that a replacement IDS with the appropriate foreign documents were filed with this response, however, these papers remain absent from the file.

**B...**Applicant submits that a substitute Abstract was filed with this response, however, no Abstract can be found.

**C...** Applicant submits that incorporating the language: "including mounted members" into claim 6, satisfies the 112 (2) rejection.

The Examiner respectfully disagrees. The added language still does not identify what specific mounted members are on each frame member. While new claim 11 identifies some elements on the main frame, the claim(s) remain silent as to what elements are mounted on the sub frame. It

Art Unit: 2652

is noted that the claims further do not make it clear whether these members are *all* the elements needed to operate the device, or are only some of them.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
